Project THRIVE
Trauma Healing and Resiliency in the Wake of Violent Events

Trauma can have lasting adverse effects on a person’s mental, physical, social, emotional or spiritual well-being. Project THRIVE, led by the Mobile Police Department, was created to close the gap between the victims of traumatic events and the services those individuals need to recover. The multi-disciplinary team, comprised of various agencies, works to fulfill the common goal of improving community safety by helping the citizens of Mobile THRIVE. If you are experiencing trauma, seek help today by calling 251-208-6383 or 251-208-6384.

FAMILY INTERVENTION TEAM
Our family interventions are goal-driven. Our approach is solution-focused.

Our Priority is to Prevent

- Juvenile Crime
- School Failure
- Drug Use
- Teen Pregnancy
- Adolescent Gang Participation
- Re-arrests
- Parent/Child Conflicts
- Runaways
- Traumatized Victims
- Unexcused School Absences

Got a juvenile demonstrating risky or criminal behavior? Contact a Family Intervention Specialist in your area to get them back on track.

Precinct 1 251-208-2581 850 Virginia Street
Precinct 2 251-208-1257 5441 Hwy 90
Precinct 3 251-470-7748 2165 St. Stephens Road
Precinct 4 251-208-1304 8080 Airport Blvd
G.R.E.A.T. PROGRAM

The Gang Resistance Education and Training (G.R.E.A.T.) program, taught to fourth graders, serves as an immunization against delinquency, youth violence and gang membership. Students learn how to make great choices by understanding how their decisions affect outcomes.

YOU STILL HAVE A CHOICE

The You Still Have a Choice program, taught in middle school, continues the dialogue about choices and consequences. The program is designed to reduce recidivism for juvenile criminal offenders.

BRIDGING THE GAP

Bridging the Gap, a national program developed through collaboration with the Mobile Police Department, FBI, and U.S. Attorney’s Office, targets ninth graders to rebuild mutual respect and trust between youth and law enforcement. Scenarios demonstrate the proper conduct youth and police officers should expect from each other during a law enforcement encounter.

PROJECT A.I.M.

Aimed at ninth graders, Project A.I.M. (Adult Identity Mentoring) is a youth development intervention based on the theory of possible selves. It evokes that the possible selves are the selves one believes one might become in the near or more distal future and are therefore important in goal setting and motivation.

YOUTH ADVOCACY PROGRAM FOR VICTIMS OF GUN VIOLENCE

Through the Youth Advocacy Program for Victims of Gun Violence, juvenile victims of gun violence are offered assistance in the recovery of their traumatic experiences before they become perpetrators of the same. Cognitive-behavioral therapy is offered.

JROTC CO-OP

JROTC CO-OP is beneficial to students interested in pursuing a law enforcement career. Students are exposed to the day-to-day functions at a police headquarters, working side by side with a police officer.

SECOND CHANCE OR ELSE (SCORE)

The SCORE program provides selected nonviolent street-level drug dealers an opportunity to save themselves from a lifetime of crime. Upon accepting the one-time offer of help, they are given support and resources to complete the one-year program.
